**RE: Episcopal Diocese of Rhode Island Petition for Declaratory Judgment on
Transmission System Costs – Docket No. 4981**

Dear Mr. Handy,

The Commission is in receipt of your letter of April 27, 2021 which will be made part of the record of these proceedings.

The emails sent to the service list which have addressed the procedural schedule, along with this letter, also will be made part of the record of these proceedings.

There is no requirement that the Commission issue a formal “order” to establish a procedural schedule. As indicated in the email of Counsel for the Commission sent on April 27, a hearing will be scheduled to hear oral arguments regarding the affidavit of new evidence filed by the Petitioner with the Supreme Court. After reviewing the briefs and holding this hearing, the Commission will consider the new evidence in the affidavit and determine whether any further hearings are necessary to appropriately respond to the Supreme Court’s Order of March 24.

To the extent the Petitioner or any other party wishes to raise any arguments regarding procedural issues, the Petitioner and such other parties should include those arguments in their briefs.

Sincerely,

A handwritten signature in cursive script that reads "Luly E. Massaro".

Luly E. Massaro
Commission Clerk
